

## **Missouri Department of Natural Resources Application for Permit to Open Burn Vegetative Waste**

**Steps to follow when applying for a permit to conduct open burning:**

- 1. Obtain a DNR application form from the Fire Department or off the DNR Web site:  
<http://www.dnr.mo.gov/mopermitassistant/forms/openBurnVegWastePrepare.do>**
- 2. Read both sides of application form carefully.**
- 3. Fill out Applicant Information, Site Information and sign where indicated under Applicant Certification.**
- 4. Return application to Fire Department**
- 5. A site inspection will be made by the Fire Department to determine if open burning will create any hazards.**
- 6. With approval by the Fire Department, DNR will then either approve or deny your application and return it to you.**
- 7. After receiving your permit notify the Fire Department each time when you start your burn and again when your fire is out.**
- 8. The applicant of the permit must have the permit readily available at the burn site.**

**Any questions regarding your application should be directed to :  
Department of Natural Resources  
Kansas City Regional Office  
816-622-7000**

**Southern Platte Fire Protection District ordinances require compliance with DNR regulations; notification when open burning is being conducted, as well as a watchperson on site with a means of preventing any spread of the fire. Ordinance violations are punishable by fine.**
